

# WALLUMiNATION

## PRODUCT SUMMARY

## ABOUT US

**Our mantra is no more bored walls. We believe every space be it commercial or residential should express emotion including the walls and that's where we come in. We work with interior designers and architectural firms to bring the walls in their projects to life. Our unique back-lit frames and fabric combined with the creativity, imagination, and conceptual thinking of designers and architects is the perfect recipe to create beautiful room environments.**

## OUR PURPOSE

**To serve the design community. We work very hard to be design friendly with lighting engineers, structural engineers, photography, graphical design, print, color experts, and fabricators to support the entire concept.**

**Quality and Superb Customer service are our guideposts.**
